# 1 Terms of delivery

## 11 General

Post reserves the right to attach its notations on postal service via adhesive labels and barcodes, as appropriate, onto letter mail items.

One of the postage paid impressions listed under [post.at/barfreimachung](https://post.at/barfreimachung) must be attached onto the letter mail item. The layout requirements and wording must be observed.

## 12 Delivery services

### PRIORITY

Preferential treatment and fastest possible transportation allow for PRIORITY items to arrive quickly at their destination. PRIORITY items must be identified clearly, e.g. with the Post adhesive label.

### ECONOMY

Cost saving mailing option, optimal price-performance ratio for transit-time-insensitive items. No identification necessary.

Payment at the counter of a post office

Payment of the fee for letter mail items not prepaid by the customer is possible when posted at the counter of a post office.

#### – Postal stationery

Postal stationery is printed matter issued by Austrian Post with the printed rate for letter mail S and letter mail M in packaging units up to 12 items. The packaging units for envelopes include a market and cost-oriented surcharge of EUR 0.05 per envelope. Only valid postal stationery issued by Austrian Post may be used.

Foreign postal stationery as well as postal stationery that are damaged, changed or have already been used for the purposes of franking must not be used.

## 13 Delivery times (transport times)

The average delivery time for PRIORITY items is 2-4 days within Europe, 3-7 days to other destinations. For further information regarding delivery times, please contact any postal service point or may be found at [post.at/laenderinformationen](https://post.at/laenderinformationen).

1.4.2 ECONOMY letter mail items may be prepaid via:

– Post-issued, postage valid stamps. Foreign stamps as well as stamps that are damaged, changed or have already been used for the purposes of franking must not be used.

– Franking conducted by the sender with a franking machine registered with Post (sender franking machine); further information thereto can be found in the regulations of usage „Frankiermaschinen“, available at [post.at/geschaefentlich\\_versenden\\_brief\\_versend\\_frankiermaschinen.php](https://post.at/geschaefentlich_versenden_brief_versend_frankiermaschinen.php).

– Alternative dispatch devices

– Postage paid impression:

The requirement for „Postage paid“ items („Bar freige-machte Sendungen“) is the concurrent sending of at least 20 letter mail items of the same basic product with the same weight.

The items must be delivered in a postal service point sorted by basic products with a corresponding dispatch note.

The indication in the dispatch note that is relevant for the invoice will be verified by Post. If the sender's data deviates from the verification made by Post, the latter constitutes the correct basis for the accounting of the rates.

Incorrect indications of the sender regarding the number of items, grammage and basic product do not harm the effectiveness of the contract conclusion in accordance with the product-specific general terms and conditions applicable at the time of conclusion of the contract (section 1.3.1 of the GTC) applicable to the concrete dispatch.

One of the postage paid impressions listed under [post.at/barfreimachung](https://post.at/barfreimachung) must be attached onto the letter mail item. The layout requirements and wording must be observed.

– Payment at the counter of a post office  
Payment of the fee for letter mail items not prepaid by the customer is possible when posted at the counter of a post office.

## 14 Prepayment

1.4.1 PRIORITY letter mail items (with the exception of insured letters) may be prepaid via:

– Franking conducted by the sender with a franking machine registered with Post (sender franking machine); further information thereto can be found in the regulations of usage „Frankiermaschinen“, available at [post.at/geschaefentlich\\_versenden\\_brief\\_versend\\_frankiermaschinen.php](https://post.at/geschaefentlich_versenden_brief_versend_frankiermaschinen.php).

– Alternative dispatch devices

– Postage paid impression:

The requirement for „Postage paid“ items („Bar freige-machte Sendungen“) is the concurrent sending of at least 20 letter mail items of the same basic product with the same weight.

The items must be delivered in a postal service point sorted by basic products with a corresponding dispatch note.

The indication in the dispatch note that is relevant for the invoice will be verified by Post. If the sender's data deviates from the verification made by Post, the latter constitutes the correct basis for the accounting of the rates.

Incorrect indications of the sender regarding the number of items, grammage and basic product do not harm the effectiveness of the contract conclusion in accordance with the product-specific general terms and conditions applicable at the time of conclusion of the contract (section 1.3.1 of the GTC) applicable to the concrete dispatch.

## 16 Posting, location of posting, time of posting

### 16.1 General provisions

- 16.1.1 The weight of letter mail items must be determined by Post. If Post cedes the weighing of letter mail items to the sender, the weight determined or stated by the latter is deemed to be correct until proven otherwise.
- 16.1.2 The sender must package the items in a manner that protects them against loss or damages.
- 16.1.3 To the extent the usage of forms are required for the claiming of services of Post, these forms must be used in the version as amended at the time of conclusion of the contract (section 1.3.1 of the GTC International Letter Mail). Templates of these forms and adhesive labels can be found in the manual International Letter Mail, available at [https://post.at/privat\\_versenden\\_brief\\_international\\_produkte.php](https://post.at/privat_versenden_brief_international_produkte.php).  
It is up to Post to decide if possible external forms conform to Post's business operating standards. The forms must be filled out by the customer. The forms handed in to Post remain with Post.

### 16.2 Indication of address and other indications

- 16.2.1 The address of the addressee must be indicated clearly and completely, in Latin writing and Arabic numbers.
- 16.2.2 Indications of the sender to treat the items in a special manner are only binding for Post, if been made in the form defined by the Index of Products and Prices International Letter Mail.
- 16.2.3 The sender can, via a notation on the address side of the item
- exclude the forwarding of letter mail items;
  - demand that the item is to be kept for pick-up at a postal service point – this service may be subject to additional fees depending on the country of destination.

The notation must be drafted in a language known in the country of destination.

## 17 Basic products

Application of the favorable rates for Letter S and Letter M requires machine-processable items with addresses that adhere to machine readability. The criteria for machine-processability are contained in the special provisions for machine processing are available at [post.at/richtigadressieren](https://post.at/richtigadressieren).

If a Letter S or Letter M item does not fulfill the requirements of machine-processability the rate of the next higher product will be charged. Items with handwritten addresses within a consignment of up to 300 items are excluded from this regulation, provided they fulfill the remaining criteria pursuant to the special provisions for machine processing.

### Letter S

- Weight: 0 - 20 g
- Minimum dimensions: 140 mm × 90 mm
- Maximum dimensions: 235 mm × 162 mm
- Maximum thickness: 5 mm

### Letter M

- Weight: 21 - 75 g
- Minimum dimensions: 140 mm × 90 mm
- Maximum dimensions: 235 mm × 162 mm
- Maximum thickness: 5 mm

### Letter L

- Weight: 0 - 2,000 g
- Minimum dimensions: 140 mm × 90 mm
- Maximum dimensions: 353 mm × 250 mm
- Maximum thickness: 30 mm

### Letter XL

- Weight: 0 - 2,000 g
- Minimum dimensions: 140 mm × 90 mm
- Maximum dimensions: Length + width + thickness = 900 mm

As soon as a format's dimension and/or weight limit is exceeded, the item is automatically assigned up to the next format. Apart from that, another type of posting must be chosen.

## 2 Rates

All subsequent rates are net rates in EUR, meaning exclusive of any legally owed dues and taxes, in particular VAT.

Starting from 1 January 2011, postal services with the destination within the European Union, which are not part of the universal service or the conditions to which have been negotiated individually, are subject to VAT. The mailing of items to destinations outside the European Union remains free of VAT. If services are rendered to businesses having their registered seat outside of Austria, these services are not subject to taxes in Austria. Where applicable, the tax liability passes over to the recipient of the service. Further information thereto can be found with the particular products.

The following postal services, additional services and rate components are part of the universal service and therefore not subject to VAT if the items do not exceed the weight limit of 2kg and if they are posted on the basis of these GTC at an access point according to the „Postmarktgesetz“ (Postmarktgesetz as amended, e.g. Post mail box, postal service points or rural postmen):

- Letters (Priority and Economy)
- Tracked
- Registered mail
- Advice of receipt
- Insured letter
- Military Mail
- Post-capture fee

In the following universal services will be marked with "UD".

## 4 International Letter Mail Plus (UD)

### 4.1 Format, maximum and minimum

#### dimensions Format P75

- Weight: 0 - 75 g
- Minimum dimensions: 140 mm × 90 mm
- Maximum dimensions: 235 mm × 162 mm
- Maximum thickness: 5 mm

#### Format P100

- Weight: > 75 - 100 g
- Minimum dimensions: 140 mm × 90 mm
- Maximum dimensions: 235 mm × 162 mm
- Maximum thickness: 5 mm

#### Format B

- Weight: 0 - 2,000 g
- Minimum dimensions: 140 mm × 90 mm
- Maximum dimensions: 353 mm × 250 mm
- Maximum thickness: 30 mm

#### Format N

- Weight: 0 - 2,000 g
- Minimum dimensions: 140 mm × 90 mm
- Maximum thickness: Length + width + thickness = 900 mm

As soon as a format's dimension and/or weight limit is exceeded, the item is automatically assigned up to the next format.

Moreover, the general dimensions and weight limits for international letter mail items (see section 1.5) apply. In case of exceedance or shortfall of these limits, a written agreement with Post is required.

The dimensions criteria of format P75 correspond with those of the basic products Letter S and Letter M (see section 1.7). Therefore, for International Letter Mail Plus items in the format P75 machine-processibility and machine readability of addresses is required. If a P75-item does not comply to the requirements of machine-processibility, the rate of the next higher format - P100 - will be charged. The criteria for machine-processible items can be found in the special provisions for machine processing.

Newspapers, magazines, books, brochures, music sheets, geographic maps, posted by the same sender to the same addressee and to the same address may be sent in M-Bags. Books and brochures must be posted in an envelope and be kept together closely on one side.

The items must not be used for commercial purposes; this also applies to enclosed price lists, prospectuses or any other commercial item. Displays and ads are only permissible to be displayed on envelopes or front covers. The following attachments are permitted: an invoice; a bill of delivery; copies of order sheets for books; loosely attached dedications. For further information, please visit any postal service point or contact your account manager.

For items contained in M-Bags the dimensions and weight limits as set out in section 1.5 apply.

M-Bags must be sent unsealed providing a highly resistant tag for address, which must include the following information: the recipient's address; franking; total weight of the M-bag (maximum of 30 kg).

Additional services: Registered mail (excluding the USA and Canada), Advice of receipt, Deliver to addressee in person.

## 7 International Business Reply Service

### 71 General

The reply service indicates letter items, which feature the recipient's declaration in its capacity as initiator of the reply item, thereby undertaking to bear the charges of the returned item.

The initiator must either enter into a deferral agreement with Post or the items must indicate a post office box as recipient. The initiator cannot refuse acceptance of reply items.

Assessment of VAT will be made on the basis of the service performed to the addressee of the reply item.

### 72 Terms of shipment

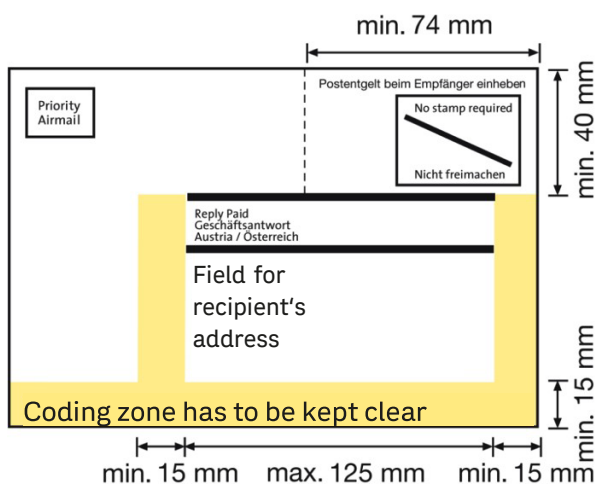

Maximum weight: 50 g

Maximum and minimum dimensions: see section 1.5

Possible higher maximum weight limits for items abroad can be obtained from the country-specific information at [post.at/laenderinformationen](http://post.at/laenderinformationen).

The recipient of the international business reply item will be charged with the postage rates International Letter Mail Priority Zone European Union according to section 1.7 basic products and 3.1 postage rates (including VAT) as well as the collection charge for reply items at the time of delivery.

Design of the address side:

## 8 International military mail (UD)

The rates International Letter Mail Priority Zone (rate zone Rest of Europe) also apply to letters and newspapers sent from and to military post offices abroad.

Additional service: Registered mail

## 9 International delivery of literature for the blind (UD)

The following items qualify for international delivery of literature for the blind: Braille publications, sound recordings and special papers intended solely for the use of blind people, and accessories helping blind to manage the difficulties of blindness, provided that they are sent by or addressed to an officially recognized institute for blind people or sent by or addressed to a blind person. The items must be sent unsealed.

Maximum weight limit: 7,000 g

Identification: „Blindensendung – Envois pour les aveugles“ – in the franking area ( see special provisions for machine processing).

Include the information „Nicht stempeln“ (Do not stamp) below, if no additional services are required.

Delivery: exempt from postal charges

Additional services (subject to additional

fees): All destinations: Registered mail

Restricted destinations: Advice of receipt, Deliver to addressee in person

## 10 Additional services

Additional services are only possible in connection with the delivery service Priority.

The additional service of Registered mail is available in all destinations. The availability of other additional services is limited to those destinations that offer the respective service. The additional service Tracked is only available in selected destinations. Further information is available at our Post customer service under 0800 010 100 or at [post.at/international](http://post.at/international).

### 10.1 Rates

(In addition to the postage rate)

Regarding VAT, the additional services are assessed on the basis of the main service, meaning that if the main service is subject to VAT, the overall service including additional services is also subject to VAT.

### 10.2 Tracked

(Universal services – in connection with a universal service product)

The posting of the item is confirmed. Delivery is documented at the recipient's premises (by means of a scan). There is no confirmation of acceptance by the recipient. The sender can track the status of the letter mail item on [post.at](http://post.at) based on the tracking number. The final status of the letter mail item is available for a period of 6 months. The maximum compensation for damages or loss is EUR 25,-. Security papers and articles of value may only be sent as insured letters, not as tracked letters. Tracked letters sent abroad must be identified with the respective adhesive label of Post. The additional service for Tracked is only available in connection with the delivery service Priority.

When posting via alternative dispatch device, a receipt will be printed automatically based on the tracking number scanned by the sender.

If at least 5 Tracked mail items are posted at the same time, Post may demand the usage and issuing of a posting book provided by Post or an electronically generated dispatch note.

### 10.3 Registered mail

(Universal services – in connection with a universal service product)

The posting of the item is confirmed. Delivery is made in exchange for a delivery confirmation, whereas the transmission of the delivery confirmation to the sender is not a service feature. The maximum compensation for damages or loss is EUR 50. Security papers and articles of value may only be sent as insured letters, not as

registered letters. Registered letters sent ab- road must be identified with the respective adhesive label of Post. The additional service for Registered mail is only available in connection with the delivery service Priority.

When posting via alternative dispatch device, a receipt will be printed automatically based on the tracking number scanned by the sender.

If at least 5 items are posted at the same time, Post may demand the usage and issuing of a posting book provided by Post or an electronically generated dispatch note.

#### 10.4 Overview Tracked – Registered mail items

	Tracked	Registered
<b>Delivery</b> (in accordance with the regulations in force in the country of destination)	Is documented (scan)	In exchange for a delivery confirmation (signature)

#### 10.5 Advice of receipt

(Universal service – in connection with a universal service product)

The advice of receipt is signed at the time the item is delivered and then returned to the sender as a confirmation of delivery. The pre-filled advice of receipt must be attached to the backside of the item and the indicium „A.R.“ must be marked on the address side.

#### 10.6 Deliver to addressee in person

The item's delivery is only carried out to the person named in the address or to his special proxy. Only possible in connection with an advice of receipt for certain destinations. The mailing must be identified with the indicium „Eigenhändig - deliver to addressee in person“ on the address side.

#### 10.7 Insured letter (UD)

The product can only be used in combination with International Letter Mail Priority and the additional service Registered mail.

Items, which contain objects with a value exceeding EUR 50, must be posted as insured letter. It is forbidden to make a declaration of value exceeding the true value of the items. In case of loss or damage of the items the maximum compensation corresponds to the declared value. Insured letters are identified with the label for Registered mail International. No further indication suggesting the value of the items or any sealing is permissible. The posting as insured letter via post box is not permissible.

### 11 Other services

#### 11.1 International reply coupon (UD)

International reply coupons may be exchanged in all member states of the Universal Postal Union according

to the local regulations. When exchanging an international reply coupon, the customer receives postage stamps upon handing over the letter mail item to be posted, by which postage is paid for the service of Letter S PRIORITY to the respective country of destination. If the dimensions of Letter S are exceeded by the item handed over, the difference between the rate for Letter S and the actual amount to be paid for the item in the actual dimension category must be paid.

#### 11.2 Post-capture Fee

(Universal service - in connection with a universal service product)

The post-capture fee is payable per item for the electronic post-capture by Post of the data required for customs treatment.
