

# FOOD DELIVERY NEXT DAY

## Your goods arrive fresh on the next day

[post.at/en-nextday](https://post.at/en-nextday)

Use Austrian Post's Next Day delivery for fresh food orders that the customer needs to receive on the next day. You can rely on our specially designed food box to keep your goods fresh.

### Next Day food delivery at a glance

- Delivered regularly the next day to the consumer's door
- Parcel's deposition in front of the door, only if the recipient is away
- Standard delivery during the day
- Delivery days: Tue-Fri (workdays)
- Throughout Austria
- Collective shipments possible

### Your benefits

**Fresh:** Food items in refrigerated packaging

**Flexible:** If the recipient is away, the delivery person leaves the item in front of the door for the recipient.

**Overview in Business Cockpit:** The information platform for shipments provides its users a full overview of shipment data, reports and investigation requests: [bec.post.at](https://bec.post.at)

**Track and trace:** Use the tracking number to see your shipment's status online: [post.at/trackandtrace](https://post.at/trackandtrace)

## Next Day in detail

### Next day standard delivery for food items

- One delivery attempt
- Standard delivery throughout Austria
- Collective shipments to a single recipient. Base price includes the 1st parcel (unit), surcharge for each additional parcel (unit).
- Evening delivery not possible
- Immediate return service informs the delivery person that the refrigerated packaging is to be emptied and returned.
- Leaving the item at the recipient's door is included. The recipient uses the enclosed return label to return the refrigerated box.
- If delivery is not possible, the item is returned to the sender immediately (no storage in the branch).
- "Fresh" must be indicated on the address label so that food delivery is immediately identifiable.
- Posting: Mon–Thu (workdays), the weekday following must not be a holiday.

## What you need to do for a successful delivery:

- Cooling must be designed for 48 hours
- An adequate number of cold packs must be cooled for at least 24 hours
- Goods must be appropriately cooled before dispatch
- Consider outside temperature depending on the season
- Optimize the temperature in the isolation box with dividers and cold packs
