BUSINESS COCKPIT
All items at a glance and accessible everywhere

bec.post.at

Use the Business Cockpit (BEC) by Austrian Post to get a complete overview of your items. The online platform provides extensive information and tools for tracking and analysing your Post Express, B2C, and B2B items.

The Business Cockpit gives you:

- All Track & Trace data with a variety of query options for your items
- Customisable queries for your items based on various criteria:
  - Status
  - Time period
  - Additional service(s)
  - Postcode
  - Weight
- Individual item tracking using the item number or your own reference number when transmitting preliminary data
- Option to search for items and initiate inquiries
- Option to download reports, analyses, and proof of delivery
- Data export options (in *.csv format)

Contact your sales representative today to receive your login details.

Your benefits:

- Find all your Track & Trace data at a glance
- Take advantage of a variety of query options
- Detailed information about your items and their status
- Starting inquiries made convenient and easy
- Use pre-defined reports or create your own to fit your needs
- Secure access with your personal account or customer number and password

We deliver. Anytime. Worldwide.
