- Quick generation of return labels
- Opportunity to drop off return mail items at any post office of a foreign postal operator
- Insurance up to 510 Euro
- Consistent Track & Tracee

Additional information

Set-up process for you

Simple programming is carried out on your web page based on our technical manual. This process enables parcel recipients abroad to easily generate and print ERS labels on your website.

Process for your customers

Your customer abroad requests an ERS label, prints it, and attaches the upper part of the label to the parcel to return your goods. The return parcel to Austria may be dropped at any post office of a foreign postal operator – and all that free of charge for the customer.

Your benefits

Easy handling: ERS facilitates returns to Austria for customers abroad; returns are sent back to you quickly and safely.

Safe: Austrian Post insures return mail items up to 510 Euro.

Track & Trace: Use the tracking number (ID code) to track and trace your ERS mail item online: post.at/trackandtrace
