SYSTEMS for parcel shipping

post.at/parcelsystems

Business clients save time with customised shipping solutions by Österreichische Post created for designing labels and managing items and data while receiving excellent service. Below please find an overview of how you can use Österreichische Post services for extra speed and convenience.

Post-Labelcenter

Our shipping software Post-Labelcenter is a trusted and continuously updated solution that allows you to process your order data and create the required labels and preliminary data. Use the Post-Labelcenter to manage all your parcel shipping processes in just a few steps. For more information, please visit post.at/plc

= %

Proprietary system

As an alternative to the Post-Labelcentre, you can also use your own system to create Österreichiche Post shipping labels. If you choose this option, please note that you will need Österreichische Post AG to previously approve your label and preliminary data. Correct labelling is key for flawless item processing. For more information, please visit post.at/kvs

Your benefits

- Swift and easy system integration
- Data transfer from ERP systems
- Accompanying documents for your international items
- Location data always up-to-date
- Austria-wide address database with time-saving address suggestions
- Includes all Österreichische Post service locations and pickup stations

Tip: Save time with a plugin! For more information, visit post.at/plcplugin
